

I am a listener of K-LOVE radio. This is the only radio station I, and many of my friends listen to. If it is taken off the air because of the proposed changes, it will effect my spiritual well being as well as my entertainment life. K-LOVE is also a great source for information on local community events that I would not know about in any other way. The public in my area depends on K-LOVE for event information as well as news and spiritual encouragement. Please do not let the LPFM stations have a priority that would cause us to lose our regular FM signal and thus lose K-LOVE.
